

WeatherLogic®

LP®WeatherLogic® Air & Water Installation Process

https://youtu.be/-7AAD_ZZzMk

Integrated wall sheathing system offers a continuous air and water barrier for a tight building envelope while allowing moisture to escape.

High-performance seam and flashing acrylic adhesive AAMA 711-13 approved, withstands temperature cycles & delivers consistent, long-term protection.

Premium protection safeguards the home from the air and water during construction and for years to come.

PROVEN TO SEAL OUT MOISTURE & AIR
