#### Benefits

- Manufactured to precise tolerances
- Resist warping, crowning and shrinking
- Manufactured in Standard and Fire Rated forms
- Available in five distinct series in depths ranging from 9.5" through 24"
- Limited lifetime guarantee against manufacturing defects
- Meet requirements of the model building codes in Canada and the U.S.

#### Fire Rated I-joists:

- Provide fire protection options for unfinished basements
- Our **U.S. Fire Rated I-joists** meet the requirements of exception 4 of R501.3, providing superior protection for unfinished basements without sprinklers or drywall.
- Our **Class A Fire Rated I-joists** have a flame spread rating of 25 or less - up to **5 times** more fire resistant than unprotected I-joists.
- Our **Class B Fire Rated I-joists** have a flame spread rating from 26 to 75 - up to **2.5 times** more fire resistant than unprotected I-joists.

## Superior Fire Resistance & Protection

Why Protect?

There are two main purposes to have fire protected wood:

1. Delay the ignition of a fire
2. Slow the spread of a fire

SafeJoists provide important protection by drastically reducing their ability to ignite in the event of a fire. When it comes to fire protection, fire rated joists are far less costly than a sprinkler system or dry walling the underside of the main floor.

### Engineered Floor System Guarantee

PinkWood joists are manufactured to meet or exceed the rigorous engineering and testing standards set by every major code approval agency in North America. All PinkWood joist products are unconditionally guaranteed to be free of manufacturing defects. PinkWood Ltd. guarantees that its PinkWood joist products, when installed and handled as per the PKjoist Installation Guide, will perform in accordance with the published structural specifications.

In the unlikely event that a problem occurs due to a manufacturing defect, PinkWood shall be given a reasonable opportunity to inspect the product on site. If this evaluation reveals a problem due to manufacturing defects, the situation shall be promptly corrected.
