# ABOUT US

For over 20 years, NCP Industries has proudly led the way in the concrete building materials industry. Rooted in Nebraska, we take pride in being a local manufacturing company that delivers innovative, high-quality products while providing personalized support.

As part of our continued growth and commitment to excellence, we've rebranded to better represent our expanding product offerings and forward-thinking vision. NCP Industries is proud to serve as the parent company for leading brands, including ADORN® Stone, ECO<sub>2</sub>LUXE®, ECOPAVR™, HANDI Pier®, HANDI Block™, and NCP Outdoor.

Additionally, we've partnered with Zip•UP Ceiling & UnderDeck® by MPGlobal™ Products, providing robust marketing and sales support for their innovative product line. Our rebrand unifies our diverse offerings and highlights our dedication to sustainability.

With the launch of ECO<sub>2</sub>LUXE® and ECOPAVR™, we're embracing cutting-edge green building solutions that combine exceptional quality with reduced environmental impact, an approach that reflects our Nebraska values and commitment to a sustainable future.

## OUR VISION

"OUR VISION FOR THE COMPANY IS TO TRANSFORM IT INTO THE FOREMOST ENVIRONMENTALLY FRIENDLY PRECAST COMPANY IN THE UNITED STATES. WE ARE DETERMINED TO LEAD THE ORGANIZATION TOWARD INNOVATIVE AND SUSTAINABLE PRACTICES THAT MINIMIZE ITS ENVIRONMENTAL IMPACT WHILE DELIVERING EXCEPTIONAL PRODUCTS AND SERVICES TO OUR CUSTOMERS.

BY CHAMPIONING ECO-FRIENDLY INITIATIVES AND CONTINUOUSLY IMPROVING OPERATIONS, WE AIM TO POSITION NCP AS A LEADER IN THE INDUSTRY."

# ADORN® STONE

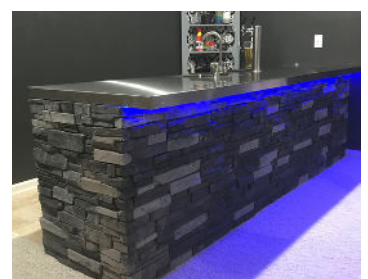

## Sustainable. Durable. Beautiful.

ADORN® Mortarless Stone Veneer redefines eco-friendly construction with easy, mortar-free installation using fasteners. Made from recycled materials, it delivers lasting durability, beauty, and sustainability, perfect for both professionals and DIYers.

## SELLING POINTS

- **Available Options:** Flats, corners, sills, pillar stone, post stone, and accessories for complete design flexibility.
- **Simplified System:** Fewer pieces and SKUs make inventory and sales easier to manage.
- **Easy Installation:** Lightweight panels attach with screws and basic tools—no mortar required.
- **No Extra Hardware:** No clips, wires, grooves, or starter strips needed.
- **Fast & Efficient:** Installs quickly in any weather, reducing labor time and costs.
- **Versatile:** Works for both interior and exterior applications.
- **Interchangeable Corners:** Inside and outside corners are fully interchangeable for faster installation and a seamless finished look.
- **Eco-Friendly & Lightweight:** Made with over 50% recycled materials—including aluminum, glass aggregate, and packaging—to reduce environmental impact.
- **Color Integrity:** Advanced coloring system ensures vibrant, natural-looking stone details that last.
- **Multiple Options:** Choose from multiple profiles and color options to suit any style.
- **Carbon-Friendly Innovation:** Now featuring ADORN® Stone ECO<sub>2</sub>LUXE™ with CaptureCrete®. Engineered to permanently absorb up to 1.5 lbs of CO<sub>2</sub> per sq. ft.
- **Guaranteed Quality:** Backed by a Limited Lifetime Warranty for long-term performance and peace of mind.
- **Nebraska-Made:** Locally produced for faster turnaround times and personalized service.

## PARTS & PIECES

### FLAT PANEL SYSTEM

- 6" H x 23.5" W x 1.75" D
- 4 Square Feet Per Box
- Cover more square footage faster

### INSIDE/OUTSIDE CORNER SYSTEM

- 6" H x 5.5" W x 9.50" W x 1.75" D
- 3 Vertical Feet Per Box
- Interchangeable and work for both inside or outside corners
- Creates a natural stagger

### SILLS

- 2.5" H x 23.5" W x 3.5" D
- 6 Linear Feet Per Box
- 2 mix and match styles - Ledgestone & Granite
- Separate the stone from trim, siding or windows

### PILLAR STONE

- 6" H x 18" W x 1.75" D
- 4 pieces per box – covers 6 inches up on all 4 sides
- Installed over a 14" x 14" frame, creating an 18" x 18" OD pillar

### POST STONE

- 6" H x 9.5" L x 1.75" D
- 12 Pieces Per Box (1.5 linear feet)
- Wraps a 6"x6" Post

\*Pillar & Post Stone  
Not Available in Granite or Premier Series

Finish off your project with coordinating accessories

### PILLAR CAP

- 20" X 20" X 2"

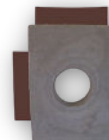

### SPLIT PILLAR CAP

- 20" x 20" X 2.5"
- Wraps around a 6x6 Post

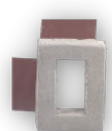

### SPLIT POST CAP

- 12"W x 12"L
- Wraps around a 6x6 Post

### LIGHT BOX

- 9" L x 12" H x 1.75" W

### OUTLET BOX

- 6" L x 7" H x 1.75" W

ADORN® Stone Accessories available in: *Brown, Tan, Gray, Birch, Alder & Walnut, Acadia, Denali & Sequoia*

## Eco<sub>2</sub>-Conscious Design Sustainable Future.

Introducing **ecoLUXE**, a groundbreaking innovation from NCP Industries that is set to redefine environmental sustainability.

The product, known as ADORN® Stone, not only boasts exquisite aesthetics but now with a new line that also carries the remarkable ability to capture CO<sub>2</sub> from the air, making it an environmentally friendly, green solution that actively works to neutralize your carbon footprint.

In partnership with **Premier Outdoor Living**, we are thrilled to unveil the Premier Series ADORN® Stone profile, designed by the Premier Outdoor Living team and the first of the **ecoLUXE** line.

ACADIA

DENALI

SEQUOIA

## HOW IT WORKS

**ecoLUXE** products are formulated with CaptureCrete™, a revolutionary concrete additive engineered to attract, capture, and store CO<sub>2</sub> from the air.

This new technology significantly lowers the carbon footprint of the product and even enhances its performance and strengthens over time.

POWERED BY  
**CAPTURE  
CRETE**

By integrating CaptureCrete™, the manufacturing of concrete products also becomes a more sustainable and eco-friendly process, actively reducing carbon emissions during production and absorbing carbon dioxide from the atmosphere.

## TESTING SUMMARY

### CO<sub>2</sub> ABSORPTION

- 1 yard of concrete produced with CaptureCrete™ produces 185 sqft of product.
- Each sqft of product absorbs 1.5 lbs of CO<sub>2</sub>.

### CO<sub>2</sub> AVOIDANCE

- In comparison to traditional concrete production, by adding CaptureCrete™ in the manufacturing process, 1 lb of CO<sub>2</sub> is avoided.
- That's a combined total of 2.5 lbs of CO<sub>2</sub> captured or avoided per sqft.

### HOW IT COMPARES

- 21 SQFT = 1 Mature Tree
- 250 SQFT = 11 Trees
- 1000 SQFT = 47 Trees

*Tests completed at University of Miami

## INSTALLATION

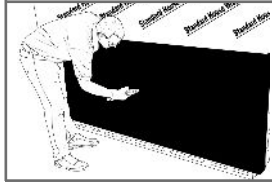

### Step 1:

Install standard house wrap over project area.

### Step 2:

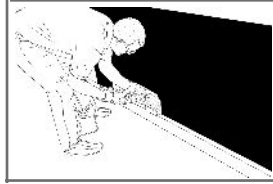

Add an additional layer of weather-resistant barrier (WRB) such as 15 lb felt over the house wrap.

### Step 3:

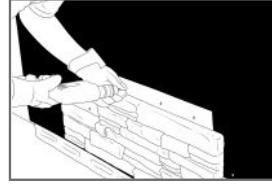

Begin installing ADORN® Flat with fasteners.

Pro Tip: Use a 2x4 at the base to line up flats for a level install.

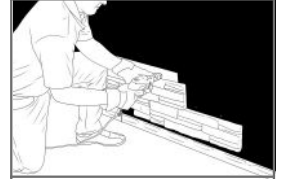

### Step 4:

Continue to stagger flats on top of each other, working your way up.

### Step 5:

Finish your install by using ADORN® accessories such as corner stones, sills and outlet boxes.

## INSTALLATION TIPS & TRICKS

### SAFETY

- Safety is the number one priority in any construction project.
- Always wear safety glasses and gloves when handling and a dust mask when cutting.

### FASTENERS

- NCP recommends the use of quality COATED exterior construction nails or screws.
- Typically 1 1/2" to 1 3/4" in length. Needs to be able to penetrate the studs to a depth of 1".
- NCP is not responsible for the corrosion resistance of fasteners. Treated lumber may react with metal or coating of fastener. Determine compatibility when selecting fasteners.

### PREP WORK

- ADORN® is nailed or screwed onto the wall; therefore no brick ledge is required.
- To be installed over 7/16" or greater OSB/plywood that is attached to wood or metal studs.
- Two layers of code-approved weather-resistive barrier (WRB) must be installed for exterior installation. Typical WRB's are Grade D building paper or #15 felt. Housewrap may be used as an inner layer.
- All wall penetrations, doors, and windows should be sealed using self-adhesive flashing properly wrapped and lapped per the flashing manufacturer's instructions.
- If treated wood is used, use 30lb felt or building paper.
- The factory edge of ADORN® panels should be used in all areas where the edge is visible.

### CUTTING

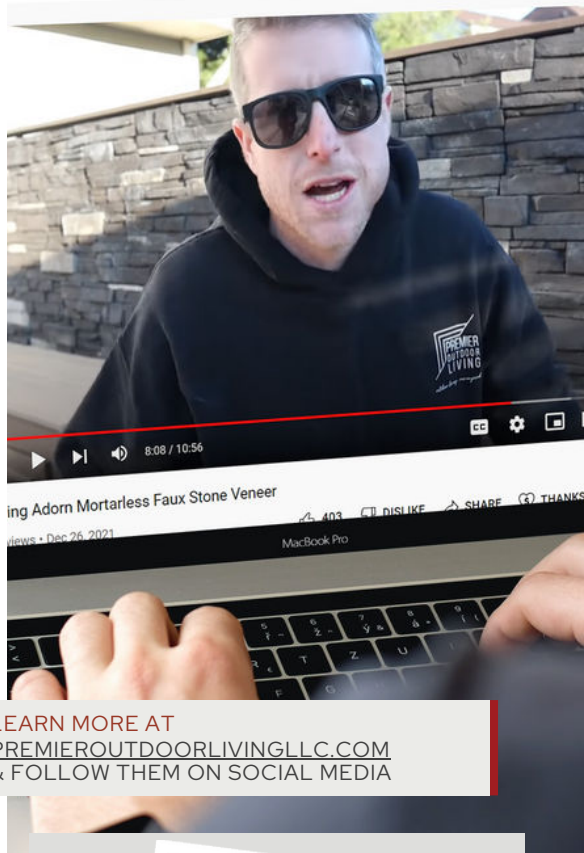

- You can use a chop saw, circular saw, wet or dry saw, or a grinder with a diamond blade.
- ADORN® Stone Color Guide is available online for touch-ups if needed.

### IMPORTANT INFORMATION

- ADORN® is limited to a height of 30ft with a normal building design.
- Heights may be increased by a structural engineer and approved by a building inspector.
- Maintain a 2" clearance from hard surfaces such as pavement and patio surfaces.
- NCP Industries will not warranty product damaged by heaved concrete or hard surfaces.
