Built to perform, designed to impress.

Choose the effortless deck.

Your summer days shouldn't be wasted on sanding and staining your deck. When you choose Fiberon, you're choosing carefree days over never-ending maintenance. Wood simply can't compare.

Built with decades of material-science expertise.

Make a long-lasting investment in your home by choosing products crafted for durability and engineered for safety.

Backed by comprehensive, industry-leading warranties.

Confidence comes standard with our comprehensive warranty protection, designed to safeguard your investment for decades to come.

Mindfully made.

We combine thoughtful processes, quality materials and careful details to create products that make a difference for your home and for the environment.

Expert knowledge. Professional results.

Choose a Fiberon Certified Installer for your next project. Find one in your area using the Find a Builder tool on fiberondecking.com.

Deepen your connection with nature.

When you're choosing products for your outdoor living space, we want you to know you're making a choice that is good for your family, your home and the environment.

The beauty of choosing Fiberon.

Your outdoor living space should provide the comforts of the indoors with the rejuvenating benefits of nature, giving you a place to unwind and make memories with family.

Fiberon, products are nearly maintenance free and retain their beauty for years to come, meaning you can enjoy the quiet moments without spending precious time on maintenance and upkeep.

TREES ARE BEAUTIFUL

About half of what's in our decking comes from recycled wood – sawdust and leftover material that would otherwise be discarded. That's the beautiful thing: even though they look like wood, we aren't cutting down trees to make our deck boards.

Fiberon uses 100% recycled wood, preventing nearly one million trees – or 20,000 acres of healthy forest – from being cut down each year. Yellowstone National Park encompasses approximately 2.22 million acres of forest.

PLASTIC LASTS A LIFETIME (OR TEN)

The other half of the core of our deck boards comes from recycled plastic, including grocery bags and recycled packaging material. A typical American family uses around 1,500 plastic bags each year, and each bag gets used for about 12 minutes. Once it's discarded, you'll probably find it in a landfill, or in the ocean, where it could last up to 1,000 years.

Our in-house recycling facility recycles around 100 million pounds of plastic each year, equivalent to the weight of more than 66,000 bison.

RESOURCEFUL TO THE LAST DROP

We reuse almost all of the water required for manufacturing our products. We keep a water reservoir about the size of the standard swimming pool at each plant that we can use and reuse – and reuse again.

Our closed-loop water system saves nearly 3.5 billion gallons of water annually. Yellowstone Falls drops that much water in 1.2 days!

OUR WARRANTIES ARE SECOND TO NONE

Fiberon products are protected by industry-leading warranties covering stain, fade and performance for both residential and commercial applications. The most common pine tree in Yellowstone can live up to 100 years. The average wood deck lasts only 10-15 years.

Note: Composite decking only. See your Fiberon seller or visit fiberondecking.com for details on limited warranties and exclusions.

fiberonbalance.com.

We are proud to be an official corporate partner of Yellowstone Forever's sustainability initiative to help ensure that Yellowstone National Park remains for generations.

Where style meets serenity.

Today's design trends invite you to create a relaxing retreat that reflects your home's unique style. Whether you're drawn to nostalgic charm, timeless elegance or laid-back luxury, we offer the products that will help turn your home into a haven.

MODERN HARMONY NOSTALGIC | INDUSTRIAL | ORGANIC

Retro styles meet nature-inspired influences as Modern homes lean into lighter hues, warm wood grains and mixed textures.

FEATURED PRODUCTS:

Promenade PVC decking in Sandy Pier |
CitySide railing in Matte Black with Over-the-Post Drink Rail

BALANCED BLEND CRAFTED | TEXTURAL | WELCOMING

The new Casual aesthetic features trend-forward colors and finishes in perfect harmony with elevated-but-comfortable details like vertical textures and eased edges.

FEATURED PRODUCTS:

Good Life composite decking, Weekender Collection in Cottage | Brio composite railing in Obsidian

WELL TAILORED DECORATIVE | TRANSITIONAL | REFINED

Traditional homes blend European-inspired elements with tailored details, including mixed wood grains and a moody color palette, for a fresh take on Old World style.

FEATURED PRODUCTS:

Sanctuary composite decking in Earl Grey | CountrySide railing in Alpine with Flat Top Cap Halo Light

The way a deck should be.

You deserve a deck that commands attention — but doesn't demand it. Where every detail reflects a legacy of expertise, from realistic grain patterns to on-trend hues. When you choose a Fiberon. deck, you're choosing low-effort over high maintenance, enduring beauty over wear and tear and peace of mind over endless upkeep.

Choose an effortless Fiberon deck — **your future self will thank you.**

- Boards feature four-sided capping, streaking on the unembossed underside and a next-generation surface coating for superior weather resistance and durability.
- Synthetic solid core construction provides protection from cracks, splinters and mold.
- Promenade deck boards feature enhanced slip resistance¹, making them an ideal choice for waterside applications.
- The lightweight, easy-to-handle boards float, making them easy to install in or under water.
- Boards won't warp or swell when submerged in water, even after being cut.
- Tested for use around fresh water, salt water and chlorinated water environments, and suitable for use in installations that may be temporarily submerged in water, like dock and pool stairs.
- When tested, Fiberon® PVC deck boards displayed high performance in resisting mold, water absorption and discoloration.
- Approved for use in all Wildland Urban Interface (WUI) zones.

Product Shown: Promenade PVC decking in Sandy Pier

¹Based on comparative results from independent testing to ASTM F1679.
Note: PVC boards should be removed from water sources where a freeze / thaw cycle may occur. Matching fascia and risers available in all colors. See your Fiberon seller or visit fiberondecking.com for details on limited warranties and exclusions.

Find the right decking for your project.

COMPOSITE DECKING

Composite decking contains recycled plastics and wood-flour components combined to form a durable material that is long lasting and requires little maintenance. Composite decking is perfect for creating a classic, traditional outdoor living space, or experimenting with different colors and layouts to design a unique, modern look.

PVC DECKING

PVC decking is lightweight and absorbs very little moisture, making it ideal for use around wet or damp areas including docks and pools. PVC construction provides durability, a high level of fire resistance and UV protection.

GOOD LIFE		SANCTUARY	CONCORDIA		PARAMOUNT	PROMENADE
Priced closer to wood, Good Life decking includes classic multi-tonal and solid hues, perfect for creating a casual outdoor living space. The beauty of wood meets advanced composite technology.

Bring your vision to life with Fiberon® Wildwood™ composite cladding. Available in two nature-inspired color collections that feature realistic embossing patterns and a wide variety of board lengths, Wildwood composite cladding provides you with endless opportunities to explore your creativity.

Wildwood™ Composite Cladding

Create a variety of looks, from subtle and rustic to bold and modern.

- Offers a long-lasting, low-maintenance, more sustainable alternative to traditional wood cladding.
- Available in a variety of board lengths and widths for more design solutions. Longer lengths result in fewer seams and the open-joint profile utilizes a concealed face fastener, creating a cleaner aesthetic.
- Mix and match board lengths and colors, or use horizontal and vertical configurations to create a unique, custom look for each project.
- Wildwood composite cladding is priced competitively to wood and is a cost savings over engineered cladding products.
- The durable composite core ensures exceptional resistance to rotting, cracking, insects and decay.
- Contains 94% recycled content.

DECK FASTENERS

Install any deck with ease.

Engineered for optimal performance and universal adaptability to any Fiberon® deck, these fasteners are designed to enhance the overall finish of the deck while offering flexibility to suit a varied range of uses and applications.

HIDDEN GROOVED FASTENER SYSTEMS

This popular choice offers versatile solutions for grooved deck boards to create a smooth, flawless surface.

FACE-FASTENING SYSTEMS

Our most budget-friendly option — designed for efficiency by combining the simplicity of Fiberon square-edge boards with standard or color-matched face-fastening applications.

LEARN MORE AT
FIBERONDECKING.COM

Hidden Grooved Fastener Systems

FIBERON. EDGE., EDGEX. AND EDGEXMETAL. CLIPS

- Install decking in half the time with award-winning Fiberon EDGE and EDGEX clips.
- Fiberon EDGE and EDGEX clips are designed for use on all grooved decking, including composite and PVC.
- EDGE clips are for 90-degree deck patterns.
- EDGEX clips are for any deck pattern.
- Pre-assembled, one-pass fasteners do not require partial installation and are easier to install with the included NEVER-MISS™ Guide.
- Clip creates 3/16 in. spacing.
- Gusset holds the board down, is up to 88% stronger than competitor's clips in lateral movement tests, and up to 50% stronger than competitor's clips in uplift holding power tests.¹
- Fiberon EDGEXMETAL clips are available with a #7 x 2 in. 410 stainless steel screw with drill point, #2 tip for 14-18 gauge metal framing.

FIBERON. STARTER CLIP

- Achieve a fastener-free deck surface on any grooved-edge board.
- Versatile clip is easy to install and can also be used as an L-Bracket.

FIBERON. PHANTOM. UNIVERSAL HIDDEN FASTENER

- Easy to install, helps minimize lateral board movement and works with most leading grooved composite decking brands.
- Black HDPE fastener practically disappears between deck boards.
- Carbon steel-coated screw helps prevent rust and corrosion.
- Pre-inserted screw enables easy one-touch installation.
- Self-gapping design ensures consistent 3/16 in. spacing between every board.
- For use with composite decking only.

Face-Fastening Systems

HIDDEN PLUG SYSTEMS

Starborn. PRO PLUG. SYSTEM Deck

- Package includes PVC / Composite Tool, screws and plugs.
- Plugs are made from Fiberon deck material for a perfect match.
- PVC / Composite Tool features Auto-Stop™ clutch mechanism.
- Impact Driver Bit now included.

Starborn PRO PLUG SYSTEM Fascia

Fascia Plug Tool Set and Fascia Plug and Screw Kit

- Fascia Plug Tool Set features Auto-Stop™ bit for setting ideal screw depth and creates perfectly sized holes for boards to expand and contract freely.
- Plugs are made from composite deck fascia material for a perfect match.
- Can also be used with composite risers.
- Fascia Plug Tool Set sold separately.
- Not available for PVC Fascia systems.

COLOR-MATCHED SCREWS

Cap-Tor. xd Color-Matched Screws

- Cap-Tor xd screws are color-matched to Fiberon decking.
- Available for composite and PVC deck boards.
- Epoxy-coated carbon steel (T-20 Star bit included).
- 305 Grade Stainless Steel version also available (T-20 Star bit included).
- Use with Smart-Bit, Depth Setter for perfect depth setting every time (Part #: SCREW CTBRD BIT sold separately).

Starborn Fascia System

- Pre-drilling and countersinking Fascia Tool with patented Smart-Bit technology (Part #: SCREW CTFS BIT sold separately).
- Designed to handle expansion and contraction that can occur with deck fascia boards.
- Screws are color-matched to Fiberon fascia.
- Epoxy-coated carbon steel screws (T-20 Star bit included).
- Also for use on riser boards.

CAMO® Tools

Install decking up to five times faster¹.

CAMO® DRIVE™

Install grooved- and square-edge decking with clip, face and edge fasteners up to five times faster with the cordless stand-up deck fastening tool that attaches to your drill.

- Installs Fiberon® EDGE® and EDGEX® Clips.
- Stand-up tool allows for a faster installation that’s easier on your body than other methods.
- Tool is easy to use — with an adjustable handle and a quick-change button for swapping out included fastening guides, it's simple to load the bit and attach to your drill.
- Also fastens CAMO collated EDGE Deck Screws and CAMO Collated Face Screws (available through CAMO).
- Replacement T-15 Drive® bits are available.

CAMO® CLIPDRIVE®

- Install grooved-edge decking exclusively with Fiberon® EDGE®, EDGEX® or EDGEXMETAL® clip fasteners from a standing position with this drill attachment.
- Ergonomic tool features a height-adjustable handle, making it the perfect fit for any installer.
- Weighted nose easily targets the screw head, speeding up your jobs.
- Non-marring nose tip prevents scuffs and rings.
- Contractor-grade tool is heavy-duty yet lightweight and quick to assemble.
- Replacement T-15 Drive® bits are available.

CAMO® LEVER®

- Straightens and locks in deck boards.
- Speeds up the installation of grooved-edge deck boards — locks in rows of boards and clips before fastening.
- Strong enough to straighten warped boards.
- Adjusts to wood and metal joists 1-1/2 – 3 in. wide for jobsite versatility.
- Multi-directional lever locks in one turn.
- Use two, three or four LEVERS along the length of the deck for the best clip installation experience with consistent board spacing.

CAMO® DRIVE™, CLIPDRIVE™ & LEVER®

- One-year warranty through CAMO.
- Sold through Fiberon distribution partners.

¹Available for Special Order in 12 ft.
²Available for Special Order in 12 ft. and 16 ft.
³When installing Paramount decking, secure stair treads over and in contact with a treated pine 2x6, installed flat, not on edge, as under support and secured with Simpson A23 approved connectors and 10d x 1.5 in. hot galvanized nails.
Note: See your Fiberon seller or visit fiberondecking.com for details on limited warranties and exclusions. Product Information Sheet available on fiberondecking.com for exact measurements and tolerances for all decking, fascia and riser boards.

Fiberon composite and PVC decking has been tested to be compliant with the 2024, 2021, 2018, 2015, 2012 and 2009 International Building Code (IBC) and 2024, 2021, 2018, 2015, 2012 and 2009 International Residential Code (IRC) when used as a deck board. May be used in exterior applications as deck boards for balconies, porches, decks, and stair treads for buildings of Type V-B (IBC) construction and dwellings constructed in accordance with the IRC. May also be used for balconies and similar projections on buildings of Type III, IV and V construction when sprinkler protection is extended to these areas, in accordance with Exception 3 to 2024, 2021 and 2018 IBC Section 705.2.31 (2015, 2012 and 2009 IBC Section 1406.3). Must be installed in a minimum of a two-span condition when used as a stair tread. See ICC-ES ESR-4947 for additional details and installation requirements in the Codes & Compliance section at fiberondecking.com/pages/literature-library.
